OUR CLIENTS

The renowned experience of our lawyers renders Nyaboke Nyakundi & Co. Advocates the firm of choice. The firm has represented various institutional and individual clients. Others include private and public companies and Non-Government Organizations (NGOs). Our legal acumen and capacity have been a valuable asset in establishing our reputable and growing clientele.

OUR APPROACH TO CLIENTS:

We take time to understand not only the legal issue, but also the circumstances and objectives behind it. Once we understand the matter, we assess the available legal and practical options and explain them clearly. Where there are different courses of action, we help clients understand the potential benefits, risks and implications so that they can make informed decisions.

COMMUNICATION & CLIENT CARE:

We also believe that good representation involves communication. Clients deserve to know where their matter stands, what steps are being taken and what may be required from them. We therefore keep clients informed at every stage of their matter.

From the outset, we set clear expectations on process and timelines, provide regular updates on case developments, and respond promptly to calls, emails, and enquiries. We believe clients deserve clarity, not legal jargon — so we explain their options in plain language and make sure they're never left wondering where things stand.

The members of our team are friendly, polite, and always dedicated to dealing with the clients in a professional manner. From the time a client steps into our office, we ensure that they feel welcome and comfortable, heard and respected, and that their issues are being taken seriously.

In addition, the clients can easily contact us through our phone number, email and social media platforms in case of any inquiries and follow up on their issues.

Proactive, timely, and transparent communication is at the heart of how we work with our clients.
